

# VRS VANDAL RESISTANT DOOR ENTRY PANELS

BESPOKE STAINLESS STEEL  
SOLUTIONS FOR DEMANDING  
ENVIRONMENTS

## Bticino VRS is a fully customisable range of vandal resistant, stainless steel door entry panels.

**Manufactured in the UK** and constructed with 316 marine grade brushed stainless steel, our VRS entrance panels are designed to suit a range of demanding environments.

Our fully customisable range allows you to create bespoke panels to best suit you and your clients needs, with a **range of size, style and colour** options available. Also available with a proximity reader cut-out to industry standards.

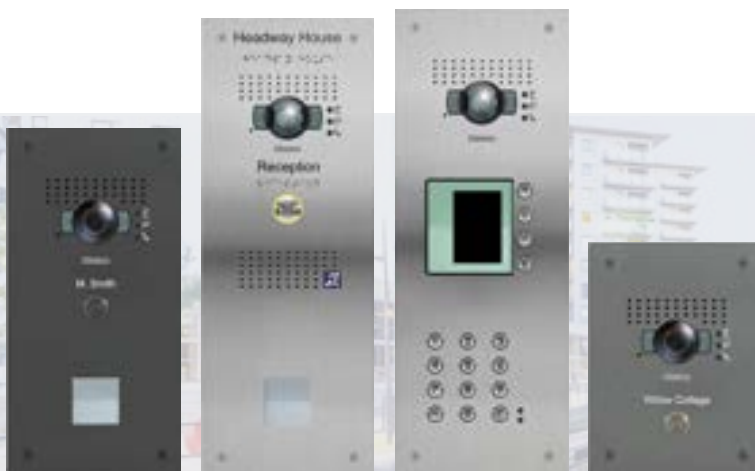

We offer **high precision engraving** in different fonts, styles and colours. We can even add company or client logos.

Bticino VRS also offers **DDA compliant** solutions - ideal for use in public areas and buildings with specialised access needs.

These additions include braille, high visibility push buttons, inductive loop with spoken operation messages and extended panel lengths.

**To start creating your bespoke door entry solutions, give our quotation team a call.**
