CONNECTED BUILDINGS  
FROM LEGRAND.

# TAKE CONTROL

## BRINGING BUILDINGS TO LIFE

Introducing Eliot: Legrand's connected devices programme. Where electricity and the Internet of Things converge to form an infrastructure of connected devices that bring smart, energy-efficient buildings to life. Working with you in end-to-end partnerships, with full training and support, we'll help you transform your building, take control of the physical and digital alike, and enable occupants to live life better.

# COMPLETE BUILDING CONTROL

## EASY TO INTEGRATE

Our team works with you to create a comprehensive, energy-efficient system that's right for your building.

## EASY TO INSTALL

From training to site support, we make the complex simple at every touch-point.

## EASY TO USE

Fingertip control over everything from entertainment to security gives occupants more time to enjoy life.

## LIVING LIFE BETTER...

### AT ONE TOWER BRIDGE.

This is Legrand in action. An integrated, intuitive system controlling everything from lighting to temperature, security to entertainment; enhancing living around the clock in over 300 luxury apartments, on the banks of the iconic River Thames.

### AT THE SAVOY.

As part of a £220m refurbishment of London's historic Savoy, Legrand combined form and function perfectly in the building's infrastructure. In elegant chrome and brass finishes, bespoke wiring accessories retain the classic aesthetic of the interior, seamlessly blending with the décor of this world-famous hotel.

For more examples of how Legrand helps people live life better, visit [www.legrand.co.uk](http://www.legrand.co.uk)

# A WIDE RANGE OF DEVICES AND FINISHES, SEAMLESSLY CONNECTED

SECURITY. ENTERTAINMENT. LIGHTING.  
TEMPERATURE. AMBIENCE.

All managed through aesthetically appealing wiring accessories and smart devices, fully integrated into one system that gives you complete control over homes, hotels and offices alike – and we're here to guide you through the process.

## WIRING ACCESSORIES

Our team can help you identify, integrate and install the right range of devices for your project, with the perfect choice of aesthetic finish.

## BUILDING AUTOMATION

Greater control, easier operation and increased efficiency: we can help you find a better way to connect and command a range of building functions.

## CONSUMER UNIT PROTECTION

Going beyond the regulations, we work with developers and installers to deliver solutions that are safe and compliant for every situation.
