

CPD seminar

The benefits of busway overhead power distribution in mission critical applications

The purpose of this presentation is to provide education on technical, operational, environmental, and economical benefits of utilising more modern techniques for power distribution in mission critical environments.

This presentation provides a review of traditional power distribution before demonstrating and providing discussion around the benefits of track busway power distribution.

Topic areas discussed include:

- Traditional Power Distribution
- Benefits of Track Busway Power Distribution
- Typical System Layout
- Track Busway in Modular Data Centres

SEMINAR CONTENT

1. Review of Traditional Power Distribution
2. Track Busway Power Distribution
3. Benefits of Track Busway Power Distribution
4. Typical System Layout
5. Typical Track Busway Components
6. Tap-off Unit Configurations
7. Track Busway in Modular Data Centres
8. Power Monitoring Possibilities
9. Summary: Track Busway Power Distribution
10. Q&A

TARGET AUDIENCE

This seminar is ideal for:

- Architects
- Designers
- Product specifiers
- Facilities Managers
- Electrical consulting engineers
- Electrical contractors
- Clients
- Students

DURATION

1 hour (to include a Q&A session)

LOCATION

Virtual via Microsoft Teams or face-to-face at your offices
